DEFENCE AND ENGINEERING

- Easy to connect and disconnect
- High strength aluminium body
- Lightweight
- Different colour options for easy identification
- Clean break guarantees no liquid loss when disconnecting
- Wide range for different flow rates
- High chemical resistance
- Compatible with PAO, EGW, Antifrogen, Water etc
- Different liquid connection options
- Environmental Specifications: MIL STD 810G, DO160
- Relief option to protect cold plates and heat exchangers from overpressure
- Product code can be created easily by using “Product Selection Table”
